

WICOLLAN

the snow scraper for heavy duty

WICOLLAN is a high-quality, abrasion-resistant polyurethane and is ideal for professional snow clearance in cities, communities and airports. Protects the road surface and increases the noise protection, compared to steel / corundum and rubber / steel snow scrapers.

< 20 mm³

very high abrasion resistance

product information

colour:	brown/orchre
material:	modified polyurethane
thickness:	20, 30, 40, 50 mm
delivery form:	block and sheets

rev. August 2014

technical data

volume weight:		ca. 1250 kg/m ³
hardness:	DIN 53505	ca. 88±5° Shore A
tensile strength:	based on DIN EN ISO 1798	≥ 51 N/mm ²
elongation of break:	based on DIN EN ISO 1798	≥ 630 %
impact resilience:	DIN 53512	≥ 35 %
abrasion:	DIN 53516	< 20 mm ³
working temprature range:		-40 bis +70°C

resistance

oils	excellent
salts	excellent
weather conditions	excellent
rotting	excellent

notes

Our advice is given to the best of our knowledge, but only as a non-binding reference and does not exempt our own examination of the products supplied by us for their suitability for the intended procedures and purposes. The specified technical data are guide values, i.e. experience values from longer production periods. The processing of our products is beyond our control and is therefore exclusively within your area of responsibility. Of course, we guarantee the perfect quality of our products according to our general sales and delivery conditions. Due to raw material and production, as well as by external influences (temperature, humidity, etc.), the stated values can fluctuate by up to ± 25%
